## XV. Project Listings by State

### Alabama

IV.B.1e	University of Alabama: Main Group Element and Organic Chemistry for Hydrogen Storage and Activation. . . . .	533
V.B.2	CFD Research Corporation: Water Transport in PEM Fuel Cells: Advanced Modeling, Material Selection, Testing, and Design Optimization. . . . .	963
V.B.2	ESI US R&D: Water Transport in PEM Fuel Cells: Advanced Modeling, Material Selection, Testing, and Design Optimization . . . . .	963

### Alaska

V.I.7	University of Alaska Fairbanks: Low-Cost Co-Production of Hydrogen and Electricity . . . . .	1151
V.I.7	Udelhoven Oilfield System Services: Low-Cost Co-Production of Hydrogen and Electricity . . . . .	1151
V.I.8	University of Alaska Fairbanks: Development of a Novel Efficient Solid-Oxide Hybrid for Co-Generation of Hydrogen and Electricity Using Nearby Resources for Local Applications . . . . .	1155
VIII.11	Tanadgusix Foundation: TDX Foundation Hydrogen Project. . . . .	1392
VIII.11	Alaska Center for Energy and Power: TDX Foundation Hydrogen Project . . . . .	1392

### Arizona

II.C.1	Arizona State University: Zeolite Membrane Reactor for Water-Gas-Shift Reaction for Hydrogen Production. . . . .	72
II.E.1	Arizona State University: Development of Water Splitting Catalysts Using a Novel Molecular Evolution Approach . . . . .	122
V.D.6	Arizona State University: Protic Salt Polymer Membranes: High-Temperature Water-Free Proton-Conducting Membranes . . . . .	1012
V.G.1	Arizona State University: Nitrided Metallic Bipolar Plates. . . . .	1104
VI.6	Arizona State University: Adaptive Process Controls and Ultrasonics for High Temperature PEM MEA Manufacture . . . . .	1249

### Arkansas

II.H.12	University of Arkansas at Little Rock: Photoelectrochemical (PEC) Hydrogen Generation. . . . .	228
II.H.13	University of Arkansas at Little Rock: University of Nevada, Reno Photo-Electrochemical Project . . . . .	232
IV.H.4	University of Arkansas at Little Rock: An Integrated Approach for Hydrogen Production and Storage in Complex Hydrides of Transitional Elements and Carbon-based Nanostructural Materials . . . . .	796

### California

II.C.3	University of Southern California: Water-Gas Shift Reaction via a Single Stage Low-Temperature Membrane Reactor. . . . .	83
II.F.1	General Atomics: Solar Cadmium Hydrogen Production Cycle. . . . .	140
II.F.2	Science Applications International, Corporation: Solar High-Temperature Water-Splitting Cycle with Quantum Boost . . . . .	144
II.H.4	Stanford University: Nanostructured MoS <sub>2</sub> and WS <sub>2</sub> for the Solar Production of Hydrogen . . . . .	189
II.H.5	University of California, Santa Barbara: Photoelectrochemical Hydrogen Production Using New Combinatorial Chemistry Derived Materials. . . . .	195
II.I.2	University of California, Berkeley: Maximizing Light Utilization Efficiency and Hydrogen Production in Microalgal Cultures . . . . .	240
III.5	HyGen Industries: Development of a Centrifugal Hydrogen Pipeline Gas Compressor . . . . .	306

**California (Continued)**

III.12	Lawrence Livermore National Laboratory: Inexpensive Delivery of Cold Hydrogen in High Performance Glass Fiber Composite Pressure Vessels. . . . .	336
III.21	Sandia National Laboratories: Hydrogen Embrittlement of Structural Steels . . . . .	379
IV.A.1a	Sandia National Laboratories: Metal Hydride Center of Excellence . . . . .	399
IV.A.1b	Stanford University: Thermodynamically Tuned Nanophase Materials for Reversible Hydrogen Storage: Structure and Kinetics of Nanoparticle and Model System Materials. . . . .	403
IV.A.1c	Sandia National Laboratories: Development of Metal Hydrides at Sandia National Laboratories . . . . .	408
IV.A.1i	HRL Laboratories, LLC: Thermodynamically Tuned Nanophase Materials for Reversible Hydrogen Storage. . . . .	444
IV.A.1j	Sandia National Laboratories: Catalyzed Nano-Framework Stabilized High-Density Reversible Hydrogen Storage Systems. . . . .	450
IV.A.1n	Jet Propulsion Laboratory: Development and Evaluation of Advanced Hydride Systems for Reversible Hydrogen Storage. . . . .	472
IV.A.1n	California Institute of Technology: Development and Evaluation of Advanced Hydride Systems for Reversible Hydrogen Storage . . . . .	472
IV.A.1q	California Institute of Technology: Synthesis of Nanophase Materials for Thermodynamically Tuned Reversible Hydrogen Storage. . . . .	487
IV.A.1q	Jet Propulsion Laboratory: Synthesis of Nanophase Materials for Thermodynamically Tuned Reversible Hydrogen Storage. . . . .	487
IV.A.3	Sandia National Laboratories: Tunable Thermodynamics and Kinetics for Hydrogen Storage: Nanoparticle Synthesis Using Ordered Polymer Templates . . . . .	498
IV.A.3	University of California, Berkeley: Tunable Thermodynamics and Kinetics for Hydrogen Storage: Nanoparticle Synthesis Using Ordered Polymer Templates. . . . .	498
IV.A.3	Lawrence Livermore National Laboratory: Tunable Thermodynamics and Kinetics for Hydrogen Storage: Nanoparticle Synthesis Using Ordered Polymer Templates. . . . .	498
IV.A.4	University of California, Los Angeles: Discovery of Novel Complex Metal Hydrides for Hydrogen Storage through Molecular Modeling and Combinatorial Methods. . . . .	502
IV.B.1j	University of California, Davis: Chemical Hydrogen Storage using Ultra-High Surface Area Main Group Materials and The Development of Efficient Amine-Borane Regeneration Cycles. . . . .	556
IV.C.1e	Karl Gross: NREL Research as Part of the Hydrogen Sorption Center of Excellence. . . . .	591
IV.C.1j	Lawrence Livermore National Laboratory: Carbon Aerogels for Hydrogen Storage. . . . .	618
IV.C.1l	California Institute of Technology: Enhanced Hydrogen Dipole Physisorption . . . . .	625
IV.C.4	University of California, Los Angeles: Hydrogen Storage in Metal-Organic Frameworks. . . . .	662
IV.C.5	University of California, Los Angeles: A Joint Theory and Experimental Project in the High-Throughput Synthesis and Testing of Porous COF and ZIF Materials for On-Board Vehicular Hydrogen Storage . . . . .	666
IV.D.1f	Jet Propulsion Laboratory: Key Technologies, Thermal Management, and Prototype Testing for Advanced Solid-State Hydrogen Storage Systems. . . . .	693
IV.D.1f	California Institute of Technology: Key Technologies, Thermal Management, and Prototype Testing for Advanced Solid-State Hydrogen Storage Systems . . . . .	693
IV.E.5	Sandia National Laboratories: Chemical and Environmental Reactivity Properties of Hydrogen Storage Materials within the Context of Systems. . . . .	729
IV.E.6	H2 Technology Consulting LLC: Best Practices for Characterizing Hydrogen Storage Properties of Materials . . . . .	735
IV.F.1	University of California, Berkeley: A Synergistic Approach to the Development of New Hydrogen Storage Materials, Part I. . . . .	745
IV.F.3	University of California, Santa Barbara: Hydrogen Storage Materials with Binding Intermediate between Physisorption and Chemisorption . . . . .	758

**California (Continued)**

IV.G.1	Lawrence Livermore National Laboratory: Compact (L)H <sub>2</sub> Storage with Extended Dormancy in Cryogenic Pressure Vessels . . . . .	771
IV.G.3	Quantum Fuel Systems Technologies Worldwide, Inc.: Low-Cost High-Efficiency High-Pressure H <sub>2</sub> Storage . . . . .	778
IV.H.3	Trulite Inc.: NaSi and NaSG Powder Hydrogen Fuel Cells . . . . .	792
IV.I.2	University of California, Davis: Activation of Hydrogen Under Ambient Conditions by Main Group Molecules . . . . .	815
IV.I.5	SLAC National Accelerator Laboratory: Bonding and Structures of Light Element-Hydrogen Systems under Extreme Conditions . . . . .	822
IV.I.18	Lawrence Berkeley National Laboratory: A Synergistic Approach to the Development of New Classes of Hydrogen Storage Materials . . . . .	875
IV.I.22	University of California, Santa Barbara: Computational Studies of Hydrogen Interactions with Storage Materials . . . . .	890
V.D.14	Lawrence Berkeley National Laboratory: New Polyelectrolyte Materials for High Temperature Fuel Cells . . . . .	1048
V.E.1	Jet Propulsion Laboratory: Advanced Cathode Catalysts and Supports for PEM Fuel Cells . . . . .	1065
V.E.4	California Institute of Technology: Non-Platinum Bimetallic Cathode Electrocatalysts . . . . .	1087
V.E.5	University of California, Riverside: Advanced Cathode Catalysts . . . . .	1092
V.H.2	Honeywell Engineering & Technology: Development of Thermal and Water Management Systems for PEM Fuel Cells . . . . .	1121
V.I.1	Intelligent Energy: Development and Demonstration of a New-Generation High Efficiency 1-10 kW Stationary Fuel Cell System . . . . .	1124
V.I.7	Bloom Energy, Inc.: Low-Cost Co-Production of Hydrogen and Electricity . . . . .	1151
V.J.2	Electricore, Inc.: Solid Oxide Fuel Cell Development for Auxiliary Power in Heavy Duty Vehicle Applications . . . . .	1173
V.J.3	Superprotonic, Inc.: Solid Acid Fuel Cell Stack for APU Applications . . . . .	1177
V.J.3	California Institute of Technology: Solid Acid Fuel Cell Stack for APU Applications . . . . .	1177
V.J.4	University of California, Davis: Research & Development for Off-Road Fuel Cell Applications . . . . .	1183
V.J.7	Nanosys, Inc.: Engineered Nanostructured MEA Technology for Low Temperature Fuel Cells . . . . .	1194
VI.4	Ultracell Corporation: Modular, High-Volume Fuel Cell Leak-Test Suite and Process . . . . .	1239
VI.7	Quantum Fuel Systems Technologies Worldwide, Inc.: Development of Advanced Manufacturing Technologies for Low Cost Hydrogen Storage Vessels . . . . .	1254
VI.8	Lawrence Livermore National Laboratory: Inexpensive Pressure Vessel Production through Fast Dry Winding Manufacture . . . . .	1257
VII.2	Lawrence Livermore National Laboratory: Water Needs and Constraints for Hydrogen Pathways . . . . .	1271
VII.5	Knowledge Networks: Discrete Choice Analysis of Consumer Preferences for Refueling Availability . . . . .	1283
VII.6	Sandia National Laboratories: Analysis of Energy Infrastructures and Potential Impacts from an Emergent Hydrogen Fueling Infrastructure . . . . .	1287
VII.14	Tetra Tech, Inc.: Potential Environmental Impacts of Hydrogen-Based Transportation and Power Systems . . . . .	1321
VII.14	Stanford University: Potential Environmental Impacts of Hydrogen-Based Transportation and Power Systems . . . . .	1321
VII.17	Sandia National Laboratories: Thermodynamic, Economic, and Environmental Modeling of Hydrogen (H <sub>2</sub> ) Co-Production Integrated with Stationary Fuel Cell Systems (FCS) . . . . .	1332
VII.17	University of California, Irvine: Thermodynamic, Economic, and Environmental Modeling of Hydrogen (H <sub>2</sub> ) Co-Production Integrated with Stationary Fuel Cell Systems (FCS) . . . . .	1332

**California (Continued)**

VIII.2	Hyundai-KIA America Technical Center Inc.: Controlled Hydrogen Fleet and Infrastructure Demonstration and Validation Project . . . . .	1359
VIII.2	Alameda-Contra Costa Transit: Controlled Hydrogen Fleet and Infrastructure Demonstration and Validation Project . . . . .	1359
VIII.2	Southern California Edison: Controlled Hydrogen Fleet and Infrastructure Demonstration and Validation Project . . . . .	1359
VIII.7	University of California, Irvine: California Hydrogen Infrastructure Project . . . . .	1378
VIII.7	National Fuel Cell Research Center: California Hydrogen Infrastructure Project . . . . .	1378
IX.1	Smart Chemistry: Hydrogen Codes and Standards . . . . .	1413
IX.3	Sandia National Laboratories: Materials Compatibility . . . . .	1420
IX.6	Sandia National Laboratories: Hydrogen Release Behavior. . . . .	1431
IX.7	City of Santa Fe Springs: Hydrogen Safety Panel . . . . .	1436
IX.8	FP2: Codes & Standards for the Hydrogen Economy. . . . .	1440
IX.9	Intelligent Optical Systems, Inc.: Hydrogen Optical Fiber Sensors . . . . .	1443
X.1	California Fuel Cell Partnership: Hydrogen Safety: First Responder Education. . . . .	1453
X.3	California State University, Los Angeles: Hydrogen and Fuel Cell Education at California State University, Los Angeles. . . . .	1460
X.4	Humboldt State University: Hydrogen Energy in Engineering Education (H <sub>2</sub> E <sup>3</sup> ). . . . .	1464
X.4	University of California, Berkeley: Hydrogen Energy in Engineering Education (H <sub>2</sub> E <sup>3</sup> ). . . . .	1464
X.15	University of California, Berkeley: Hydrogen Education State Partnership Program. . . . .	1502
X.16	University of California, Berkeley: Hydrogen Technology and Energy Curriculum (HyTEC). . . . .	1506
X.16	Humboldt State University: Hydrogen Technology and Energy Curriculum (HyTEC) . . . . .	1506

**Colorado**

II.A.6	National Renewable Energy Laboratory: Distributed Bio-Oil Reforming . . . . .	45
II.A.6	Colorado School of Mines: Distributed Bio-Oil Reforming . . . . .	45
II.B.1	National Renewable Energy Laboratory: Indirectly Heated Gasification of Biomass to Produce Hydrogen. . . . .	58
II.C.2	Colorado School of Mines: High Performance Palladium-Based Membrane for Hydrogen Separation and Purification . . . . .	78
II.D.2	Eltron Research Inc.: Scale-up of Hydrogen Transport Membranes for IGCC and FutureGen Plants . . . . .	106
II.D.3	TDA Research: High Permeability Ternary Palladium Alloy Membranes with Improved Sulfur and Halide Tolerance . . . . .	110
II.D.3	Colorado School of Mines: High Permeability Ternary Palladium Alloy Membranes with Improved Sulfur and Halide Tolerance. . . . .	110
II.E.4	National Renewable Energy Laboratory: Renewable Electrolysis Integrated System Development and Testing. . . . .	136
II.E.4	Engineering Procurement & Construction: Renewable Electrolysis Integrated System Development and Testing. . . . .	136
II.E.4	Spectrum Automation: Renewable Electrolysis Integrated System Development and Testing . . . . .	136
II.F.3	University of Colorado at Boulder: Solar-Thermal Hydrogen Production Using a Metal-Oxide Based Thermochemical Water Splitting Cycle . . . . .	152
II.H.6	National Renewable Energy Laboratory: Semiconductor Materials for Photoelectrolysis. . . . .	202
II.H.7	National Renewable Energy Laboratory: Theory of Oxides for Photo-Electrochemical Hydrogen Production. . . . .	208
II.H.8	MVSystems, Incorporated: Photoelectrochemical Hydrogen Production: MVSystems Incorporated . . . . .	212

**Colorado (Continued)**

II.H.11	National Renewable Energy Laboratory: Critical Research for Cost-Effective Photoelectrochemical Production of Hydrogen . . . . .	224
II.H.13	National Renewable Energy Laboratory: University of Nevada, Reno Photo-Electrochemical Project . . . . .	232
II.I.3	National Renewable Energy Laboratory: Biological Systems for Hydrogen Photoproduction . . . . .	243
II.I.3	Golden BioEnergy Corporation: Biological Systems for Hydrogen Photoproduction . . . . .	243
II.I.4	National Renewable Energy Laboratory: Fermentative and Electrohydrogenic Approaches to Hydrogen Production. . . . .	247
II.J.1	National Renewable Energy Laboratory: Purdue Hydrogen Systems Laboratory: Hydrogen Production . . . . .	263
III.2	National Renewable Energy Laboratory: H2A Delivery Components Module. . . . .	292
IV.B.1g	U.S. Borax: Ammonia Borane Regeneration and Market Analysis of Hydrogen Storage Materials . . . . .	544
IV.C.1a	National Renewable Energy Laboratory: Overview of the DOE Hydrogen Sorption Center of Excellence. . . . .	568
IV.C.1e	National Renewable Energy Laboratory: NREL Research as Part of the Hydrogen Sorption Center of Excellence. . . . .	591
IV.D.1g	National Renewable Energy Laboratory: System Design, Analysis, Modeling, and Media Engineering Properties for Hydrogen Energy Storage. . . . .	696
IV.H.1	National Renewable Energy Laboratory: Purdue Hydrogen Systems Laboratory . . . . .	782
IV.I.20	Colorado School of Mines: Molecular Hydrogen Storage in Novel Binary Clathrate Hydrates at Near-Ambient Temperatures and Pressures . . . . .	883
V.D.1	BekkTech LLC: Lead Research and Development Activity for DOE's High Temperature, Low Relative Humidity Membrane Program . . . . .	989
V.D.11	Colorado School of Mines: Novel Approaches to Immobilized Heteropoly Acid (HPA) Systems for High Temperature, Low Relative Humidity Polymer-Type Membranes . . . . .	1034
V.D.13	Colorado School of Mines: Membranes and MEAs for Dry, Hot Operating Conditions. . . . .	1042
V.I.6	Colorado School of Mines: Renewable and Logistics Fuels for Fuel Cells at the Colorado School of Mines . . . . .	1144
V.I.6	Protonex Technology, LLC: Renewable and Logistics Fuels for Fuel Cells at the Colorado School of Mines . . . . .	1144
V.I.6	Reaction Systems, LLC: Renewable and Logistics Fuels for Fuel Cells at the Colorado School of Mines. . . . .	1144
V.J.1	Protonex Technology, LLC: Diesel-Fueled SOFC System for Class 7/Class 8 On-Highway Truck Auxiliary Power . . . . .	1169
VI.1	National Renewable Energy Laboratory: Fuel Cell Membrane Electrode Assembly Manufacturing R&D. . . . .	1225
VII.1	National Renewable Energy Laboratory: HyDRA: Hydrogen Demand and Resource Analysis Tool. . . . .	1267
VII.1	A Mountaintop LLC: HyDRA: Hydrogen Demand and Resource Analysis Tool . . . . .	1267
VII.4	National Renewable Energy Laboratory: Macro-System Model . . . . .	1279
VII.5	National Renewable Energy Laboratory: Discrete Choice Analysis of Consumer Preferences for Refueling Availability . . . . .	1283
VII.7	National Renewable Energy Laboratory: Hydrogen Deployment System Modeling Environment (HyDS-ME) . . . . .	1291
VII.9	National Renewable Energy Laboratory: Adapting the H2A Hydrogen Production Cost Analysis Model to Stationary Applications . . . . .	1300
VII.16	National Renewable Energy Laboratory: DOE Hydrogen Program Risk Analysis in Support of EERE's Portfolio Analysis . . . . .	1328

**Colorado (Continued)**

VII.18 National Renewable Energy Laboratory: Stranded Biogas Decision Tool for Fuel Cell Co-Production. . . . . 1342

VIII.1 National Renewable Energy Laboratory: Controlled Hydrogen Fleet & Infrastructure Analysis . . . 1351

VIII.8 National Renewable Energy Laboratory: Technology Validation: Fuel Cell Bus Evaluations . . . . . 1382

IX.1 National Renewable Energy Laboratory: Hydrogen Codes and Standards. . . . . 1413

IX.2 National Renewable Energy Laboratory: Hydrogen Safety Sensors . . . . . 1416

IX.8 Regulatory Logic: Codes & Standards for the Hydrogen Economy. . . . . 1440

IX.8 James M. Ohi: Codes & Standards for the Hydrogen Economy. . . . . 1440

X.2 National Renewable Energy Laboratory: Hydrogen Education for Code Officials. . . . . 1457

X.2 Ecommerce Systems, Inc.: Hydrogen Education for Code Officials . . . . . 1457

X.2 Adrenaline: Hydrogen Education for Code Officials. . . . . 1457

**Connecticut**

II.B.2 United Technologies Research Center: A Novel Slurry-Based Biomass Reforming Process . . . . . 64

II.D.4 United Technologies Research Center: Experimental Demonstration of Advanced Palladium Membrane Separators for Central High-Purity Hydrogen Production . . . . . 114

II.E.2 Avalence LLC: High-Capacity, High Pressure Electrolysis System with Renewable Power Sources. . . . . 128

III.7 FuelCell Energy, Inc.: Development of Highly Efficient Solid-State Electrochemical Hydrogen Compressor . . . . . 317

III.7 Sustainable Innovations, LLC: Development of Highly Efficient Solid-State Electrochemical Hydrogen Compressor . . . . . 317

III.11 Gas Equipment Engineering Corporation: Innovative Hydrogen Liquefaction Cycle . . . . . 331

III.11 R&D Dynamics: Innovative Hydrogen Liquefaction Cycle . . . . . 331

III.13 United Technologies Research Center: Reversible Liquid Carriers for an Integrated Production, Storage and Delivery of Hydrogen . . . . . 340

IV.A.1j United Technologies Research Center: Catalyzed Nano-Framework Stabilized High-Density Reversible Hydrogen Storage Systems . . . . . 450

IV.A.6 University of Connecticut: Effects and Mechanisms of Mechanical Activation on Hydrogen Sorption/Desorption of Nanoscale Lithium Nitrides and Lithium Borohydrides . . . . . 508

IV.D.1d United Technologies Research Center: Advancement of Systems Designs and Key Engineering Technologies for Materials Based Hydrogen Storage . . . . . 686

IV.E.4 United Technologies Research Center: Quantifying and Addressing the DOE Material Reactivity Requirements with Analysis and Testing of Hydrogen Storage Materials and Systems . . . . . 724

V.C.3 University of Connecticut: Effects of Impurities on Fuel Cell Performance and Durability. . . . . 983

V.C.3 FuelCell Energy, Inc.: Effects of Impurities on Fuel Cell Performance and Durability. . . . . 983

V.C.3 United Technologies – Hamilton Sundstrand: Effects of Impurities on Fuel Cell Performance and Durability . . . . . 983

V.D.10 FuelCell Energy, Inc.: High Temperature Membrane with Humidification-Independent Cluster Structure . . . . . 1031

V.E.2 UTC Power: Highly Dispersed Alloy Catalyst for Durability . . . . . 1075

V.E.3 University of Connecticut: Development of Alternative and Durable High Performance Cathode Supports for PEM Fuel Cells . . . . . 1081

V.G.1 GenCell Corporation: Nitrided Metallic Bipolar Plates . . . . . 1104

V.G.3 UTC Power: Low-Cost Durable Seals for PEMFCs. . . . . 1113

V.G.3 Henkel Corporation: Low-Cost Durable Seals for PEMFCs . . . . . 1113

V.I.2 UTC Power: PEM Fuel Cell Powerplant Development and Verification. . . . . 1128

**Connecticut (Continued)**

VI.5	UTC Power: Manufacturing of Low-Cost, Durable Membrane Electrode Assemblies Engineered for Rapid Conditioning . . . . .	1243
VIII.2	UTC Power: Controlled Hydrogen Fleet and Infrastructure Demonstration and Validation Project . . . . .	1359
VIII.6	FuelCell Energy, Inc.: Validation of an Integrated Hydrogen Energy Station . . . . .	1374
IX.7	Hydrogen Safety, LLC: Hydrogen Safety Panel . . . . .	1436
IX.7	GWS Solutions of Tolland, LLC: Hydrogen Safety Panel . . . . .	1436
IX.8	GWS Solutions of Tolland, LLC: Codes & Standards for the Hydrogen Economy . . . . .	1440
IX.8	Kelvin Hecht: Codes & Standards for the Hydrogen Economy . . . . .	1440
X.12	Connecticut Center for Advanced Technology, Inc.: State and Local Partnership Building . . . . .	1494

**Delaware**

IV.A.5	Delaware State University: Center for Hydrogen Storage Research at Delaware State University . . . . .	504
V.E.3	University of Delaware: Development of Alternative and Durable High Performance Cathode Supports for PEM Fuel Cells . . . . .	1081
V.H.1	University of Delaware: CIRBUS: Cell Ice Regulation and Removal Upon Start-Up . . . . .	1117
VI.5	University of Delaware: Manufacturing of Low-Cost, Durable Membrane Electrode Assemblies Engineered for Rapid Conditioning. . . . .	1243

**Florida**

II.F.2	University of Central Florida: Solar High-Temperature Water-Splitting Cycle with Quantum Boost. . . . .	144
II.J.3	University of South Florida: Hydrogen Production and Fuel Cell Research . . . . .	276
II.J.3	University of Central Florida: Hydrogen Production and Fuel Cell Research. . . . .	276
IV.H.2	University of South Florida: Hydrogen Storage Research. . . . .	786
IV.I.3	University of South Florida: Design and Synthesis of Novel Porous Metal-Organic Frameworks (MOFs) Toward High Hydrogen Storage Capacity . . . . .	817
IV.I.15	Florida International University: Influence of Pressure on Physical Property of Ammonia Borane and its Re-Hydrogenation. . . . .	861
V.D.1	University of Central Florida: Lead Research and Development Activity for DOE's High Temperature, Low Relative Humidity Membrane Program . . . . .	989
VIII.13	Florida Hydrogen Initiative: Florida Hydrogen Initiative . . . . .	1397
VIII.13	EnerFuel, Inc.: Florida Hydrogen Initiative . . . . .	1397
VIII.13	Orlando Science Center: Florida Hydrogen Initiative. . . . .	1397
VIII.13	University of Central Florida: Florida Hydrogen Initiative. . . . .	1397
IX.7	Addison Bain: Hydrogen Safety Panel . . . . .	1436
X.6	University of Central Florida: Bachelor of Science Engineering Technology Hydrogen and Fuel Cell Education Program Concentration . . . . .	1472

**Georgia**

II.D.3	Georgia Institute of Technology: High Permeability Ternary Palladium Alloy Membranes with Improved Sulfur and Halide Tolerance. . . . .	110
III.18	Chemical Composite Coatings Int'l, LLC: Materials Solutions for Hydrogen Delivery in Pipelines . . . . .	361
IV.A.1h	Georgia Institute of Technology: First-Principles Modeling of Hydrogen Storage in Metal Hydride Systems . . . . .	439
IV.I.14	Georgia Institute of Technology: First-Principles Studies of Phase Stability and Reaction Dynamics in Complex Metal Hydride. . . . .	859

**Georgia (Continued)**

IV.I.25 University of Georgia: Integrated Nanoscale Metal Hydride-Catalyst Architectures for Hydrogen Storage . . . . . 903

VIII.12 Center for Transportation and the Environment: Texas Hydrogen Highway - Fuel Cell Hybrid Bus and Fueling Infrastructure Technology Showcase . . . . . 1394

**Hawaii**

II.H.1 University of Hawaii at Manoa: Photoelectrochemical Hydrogen Production: DOE PEC Working Group Overview . . . . . 175

II.H.8 University of Hawaii at Manoa: Photoelectrochemical Hydrogen Production: MVSystems Incorporated . . . . . 212

II.H.9 University of Hawaii at Manoa: Progress in the Study of Amorphous Silicon Carbide (a-SiC) as a Photoelectrode in Photoelectrochemical (PEC) Cells . . . . . 217

II.H.10 University of Hawaii at Manoa: Progress in the Study of Copper Chalcopyrites as Photoelectrodes in Photoelectrochemical Cells . . . . . 221

IV.A.1g University of Hawaii: Fundamental Studies of Advanced High-Capacity, Reversible Metal Hydrides . . . . . 432

IV.A.4 Hawaii Hydrogen Carriers: Discovery of Novel Complex Metal Hydrides for Hydrogen Storage through Molecular Modeling and Combinatorial Methods . . . . . 502

V.D.12 University of Hawaii: Improved, Low-Cost, Durable Fuel Cell Membranes . . . . . 1039

VIII.9 University of Hawaii at Manoa: Hawaii Hydrogen Center for Development and Deployment of Distributed Energy Systems . . . . . 1387

IX.1 University of Hawaii: Hydrogen Codes and Standards . . . . . 1413

**Idaho**

II.G.4 Idaho National Laboratory: Laboratory-Scale High Temperature Electrolysis System . . . . . 170

IV.B.1f Battelle Energy Alliance, LLC: Low-Cost Precursors to Novel Hydrogen Storage Materials . . . . . 539

**Illinois**

II.A.3 Archer Daniels Midland Company: Hydrogen Generation from Biomass-Derived Carbohydrates via the Aqueous-Phase Reforming (APR) Process . . . . . 31

II.A.5 Argonne National Laboratory: Distributed Reforming of Renewable Liquids via Water Splitting Using Oxygen Transport Membrane (OTM) . . . . . 41

II.A.7 Argonne National Laboratory: Pressurized Steam Reforming of Bio-Derived Liquids for Distributed Hydrogen Production . . . . . 49

II.G.1 Argonne National Laboratory: R&D Status for the Cu-Cl Thermochemical Cycle . . . . . 155

III.1 Argonne National Laboratory: Hydrogen Delivery Infrastructure Analysis . . . . . 289

III.8 Argonne National Laboratory: Hydrogen Pipeline Compressors . . . . . 319

III.19 University of Illinois, Urbana-Champaign: Hydrogen Embrittlement of Pipelines: Fundamentals, Experiments, Modeling . . . . . 366

IV.A.11 University of Illinois, Urbana-Champaign: Reversible Hydrogen Storage Materials – Structure, Chemistry, and Electronic Structure . . . . . 461

IV.A.2 Northwestern University: Design of Novel Multi-Component Metal Hydride-Based Mixtures for Hydrogen Storage . . . . . 496

IV.A.4 UOP LLC: Discovery of Novel Complex Metal Hydrides for Hydrogen Storage through Molecular Modeling and Combinatorial Methods . . . . . 502

IV.C.1f Argonne National Laboratory: Hydrogen Storage Media through Nanostructured Polymeric Materials . . . . . 601

IV.C.1f University of Chicago: Hydrogen Storage Media through Nanostructured Polymeric Materials . . . . . 601

IV.C.6 Northwestern University: New Carbon-Based Porous Materials with Increased Heats of Adsorption for Hydrogen Storage . . . . . 668

**Illinois (Continued)**

IV.E.2	Argonne National Laboratory: System Level Analysis of Hydrogen Storage Options . . . . .	714
IV.F.5	Gas Technology Institute: Electron-Charged Graphite-Based Hydrogen Storage Material . . . . .	768
IV.F.5	Superior Graphite Company: Electron-Charged Graphite-Based Hydrogen Storage Material . . . . .	768
IV.I.8	Northwestern University: Kinetics and Thermodynamics of Metal and Complex Hydride Nanoparticles . . . . .	832
IV.I.12	Southern Illinois University: First Principles-Based Simulation of Hydrogen Interactions in Complex Hydrides . . . . .	851
V.A.1	Argonne National Laboratory: Fuel Cell Systems Analysis. . . . .	919
V.A.4	Argonne National Laboratory: Fuel Cell Testing at Argonne National Laboratory . . . . .	937
V.E.1	Argonne National Laboratory: Advanced Cathode Catalysts and Supports for PEM Fuel Cells . . .	1065
V.E.4	Argonne National Laboratory: Non-Platinum Bimetallic Cathode Electrocatalysts . . . . .	1087
V.E.4	University of Illinois at Chicago: Non-Platinum Bimetallic Cathode Electrocatalysts. . . . .	1087
V.E.5	Argonne National Laboratory: Advanced Cathode Catalysts. . . . .	1092
V.E.5	University of Illinois, Urbana-Champaign: Advanced Cathode Catalysts . . . . .	1092
V.I.3	Construction Engineering Research Laboratory: Intergovernmental Stationary Fuel Cell System Demonstration . . . . .	1132
VII.3	Argonne National Laboratory: Cost Implications of Hydrogen Quality Requirements . . . . .	1274
VII.8	RCF Economic and Financial Consulting, Inc.: Analysis of the Hydrogen Production and Delivery Infrastructure as a Complex Adaptive System. . . . .	1296
VII.8	BP America: Analysis of the Hydrogen Production and Delivery Infrastructure as a Complex Adaptive System . . . . .	1296
VII.12	Argonne National Laboratory: Fuel-Cycle Analysis of Hydrogen-Powered Fuel-Cell Systems with the GREET Model . . . . .	1312
