

# Table of Contents

<b>Introduction .....</b>	<b>1</b>
Organization of the Report.....	2
Overview of the Hydrogen Program.....	2
Office Overviews and Updates .....	11
In Closing.....	19
<b>Program Peer Review Summary .....</b>	<b>21</b>
Summary of Reviewer Comments.....	21
<b>Hydrogen Technologies – 2022 .....</b>	<b>27</b>
Subprogram Overview.....	27
Project Summaries .....	31
Project #P-148: HydroGEN Overview: A Consortium on Advanced Water-Splitting Materials.....	31
Project #P-196: H2NEW Consortium: Hydrogen from Next-Generation Electrolyzers of Water .....	31
Project #P-197: Advanced Manufacturing Processes for Gigawatt-Scale Proton Exchange Membrane Water Electrolyzers: Oxygen Evolution Reaction Catalysts and Electrodes .....	32
Project #P-198: Enabling Low-Cost Proton Exchange Membrane Electrolysis at Scale Through Optimization of Transport Components and Electrode Interfaces .....	32
Project #P-199: Integrated Membrane Anode Assembly and Scale-Up .....	33
Project #IN-015: Optimizing the Heisenberg Vortex Tube for Hydrogen Cooling .....	33
Project #IN-016: Free-Piston Expander for Hydrogen Cooling .....	33
Project #IN-034: HyBlend: Pipeline Cooperative Research and Development Agreement – Cost and Emissions Analysis .....	34
Project #IN-035: HyBlend: Pipeline Cooperative Research and Development Agreement – Materials Research and Development.....	34
Project #ST-236: Low-Cost, High-Performance Carbon Fiber for Compressed Natural Gas Storage Tanks.....	35
Project #ST-237: Carbon Composite Optimization Reducing Tank Cost.....	35
Project #ST-238: Low-Cost, High-Strength Hollow Carbon Fiber for Compressed Gas Storage Tanks.....	36
Project #ST-239: Melt-Spun Polyacrylonitrile Precursor for Cost-Effective Carbon Fibers in High-Pressure Compressed Gas Tankage.....	36
Project #ST-240: Cost-Optimized Structural Carbon Fiber for Hydrogen Storage Tanks.....	37
Project #ST-241: First Demonstration of a Commercial-Scale Liquid Hydrogen Storage Tank Design for International Trade Applications .....	37

---

Annual Merit Review of the Hydrogen Technologies Subprogram .....	37
<b>Fuel Cell Technologies – 2022 .....</b>	<b>41</b>
Subprogram Overview.....	41
Project Summaries .....	45
Project #FC-160: ElectroCat 2.0 (Electrocatalysis Consortium).....	45
Project #FC-167: Fiscal Year 2020 Small Business Innovation Research Phase IIA: Multi- Functional Catalyst Support.....	46
Project #FC-323: Durable Fuel Cell Membrane Electrode Assembly through Immobilization of Catalyst Particle and Membrane Chemical Stabilizer .....	46
Project #FC-326: Durable Membrane Electrode Assemblies for Heavy-Duty Fuel Cell Electric Trucks.....	47
Project #FC-327: Durable High-Power-Density Fuel Cell Cathodes for Heavy-Duty Vehicles .....	47
Project #FC-333: Advanced Membranes for Heavy-Duty Fuel Cell Trucks .....	47
Project #FC-334: Extending Perfluorosulfonic Acid Membrane Durability through Enhanced Ionomer Backbone Stability .....	48
Project #FC-335: Additive Functionalized Polymers for Extended Heavy-Duty Polymer Electrolyte Membrane Lifetimes.....	48
Project #FC-336: A Systematic Approach to Developing Durable Conductive Membranes for Operation at 120°C .....	48
Project #FC-337: Cummins Polymer Electrolyte Membrane Fuel Cell System for Heavy-Duty Applications .....	49
Project #FC-338: Domestically Manufactured Fuel Cells for Heavy-Duty Applications .....	49
Project #FC-339: M2FCT: Million Mile Fuel Cell Truck Consortium.....	50
Project #FC-353: Fuel Cell Cost and Performance Analysis.....	50
Project #FC-354: L'Innovator Program.....	50
Project #FC-356: Durable High-Efficiency Membrane Electrode Assemblies for Heavy-Duty Fuel Cell Vehicles.....	51
Annual Merit Review of the Fuel Cell Technologies Subprogram.....	51
<b>Technology Acceleration – 2022 .....</b>	<b>53</b>
Subprogram Overview.....	53
Project Summaries .....	60
Project #TA-001: Membrane Electrode Assembly Manufacturing Research and Development.....	60
Project #TA-018: High-Temperature Electrolysis Test Stand.....	60
Project #TA-028: Demonstration of Electrolyzer Operation at a Nuclear Plant to Allow for Dynamic Participation in an Organized Electricity Market and In-House Hydrogen Supply .....	61
Project #TA-037: Demonstration and Framework for H2@Scale in Texas and Beyond .....	61

---

Project #TA-039: Solid Oxide Electrolysis System Demonstration .....	62
Project #TA-043: Electrolyzer Stack Development and Manufacturing .....	62
Project #TA-044: System Demonstration for Supplying Clean, Reliable, and Affordable Electric Power to Data Centers Using Hydrogen Fuel .....	62
Project #TA-045: San Francisco Waterfront Maritime Hydrogen Demonstration Project .....	63
Project #TA-048: Advanced Research on Integrated Energy Systems (ARIES)/Flatirons Facility – Hydrogen System Capability Buildout.....	63
Project #TA-049: High-Pressure, High-Flow-Rate Dispenser and Nozzle Assembly for Heavy-Duty Vehicles.....	64
Project #TA-051: Lowering Total Cost of Hydrogen by Exploiting Offshore Wind and Polymer Electrolyte Membrane Electrolysis Synergies.....	64
Project #TA-052: Solid Oxide Electrolysis Cells Integrated with Direct Reduced Iron Plants for Producing Green Steel.....	65
Project #TA-053: Grid-Interactive Steelmaking with Hydrogen.....	65
Project #TA-054: Anion Exchange Membrane Water Electrolyzer for Hydrogen Production from Offshore Wind .....	66
Project #TA-060: U.S. Wind-to-Hydrogen Modeling, Analysis, Testing, and Collaboration.....	66
Project #TA-065: Total Cost of Ownership Analysis of Hydrogen Fuel Cells in Off-Road Heavy-Duty Applications – Preliminary Results.....	66
Annual Merit Review of the Technology Acceleration Subprogram .....	67
<b>Safety, Codes and Standards – 2022.....</b>	<b>70</b>
Activity Overview.....	70
Project Summaries .....	74
Project #SCS-010: Research and Development for Safety, Codes and Standards: Hydrogen Behavior .....	74
Project #SCS-011: Hydrogen Quantitative Risk Assessment.....	74
Project #SCS-019: Hydrogen Safety Panel, Safety Knowledge Tools, and First Responder Training Resources .....	75
Project #SCS-021: Hydrogen Sensor Testing Laboratory.....	75
Project #SCS-028: Hydrogen Education for a Decarbonized Economy .....	76
Annual Merit Review of the Safety, Codes and Standards Activity .....	76
<b>Systems Analysis – 2022.....</b>	<b>77</b>
Subprogram Overview.....	77
Project Summaries .....	80
Project #SA-174: Life Cycle Analysis of Hydrogen Pathways.....	80
Project #SA-175: Regional Hybrid Energy Systems Technoeconomic Analysis .....	81

---

Project #SA-181: Global Change Analysis Model Expansion – Hydrogen Pathways.....	81
Project #SA-182: Biomass Gasification Optimal Business Case Analysis Tool.....	81
Project #SA-183: H2X Tool: Technoeconomic Modeling for Utilizing Curtailed Solar Power in California for Green Hydrogen Generation .....	82
Project #SA-185: Hydrogen Business Appraisal Tool .....	82
Annual Merit Review of the Systems Analysis Subprogram.....	83
<b>Appendix A: 2022 Hydrogen Program Review Summary.....</b>	<b>84</b>
<b>Appendix B: 2022 Hydrogen Program Annual Merit Review and Peer Evaluation Meeting Attendee List .....</b>	<b>120</b>
<b>Appendix C: 2022 AMR Hydrogen Program Review Questions .....</b>	<b>180</b>
<b>Appendix D. List of Projects.....</b>	<b>184</b>
Oral Presentations.....	184
Poster Presentations .....	189
<b>Appendix E. Funding Opportunity Announcement Selections .....</b>	<b>202</b>
