

Marie A. Ffolkes

President, Industrial Gases–Americas
Air Products and Chemicals, Inc.

Marie Ffolkes has served as the President of Industrial Gases for Americas at Air Products and Chemicals, Inc. since May 2015 and is responsible for leading the strategy implementation and profitability of Air Products' industrial gases operation in North and South America. Ms. Ffolkes has over 20 years of manufacturing experience and has held senior executive positions with increasing responsibilities at several companies. Prior to joining Air Products, Ms. Ffolkes held the position of global vice president and general manager of the Global Elastomer & Ride Performance Group of Tenneco, Inc. She also has held leadership positions at Johnson Controls, Inc. (including Vice President and General Manager, South America, based in São Paulo, Brazil) and General Electric Company. Ms. Ffolkes serves on Masco Corporation's Board of Directors as a member of the Audit and Organization & Compensation Committees, and is a member of the National Association of Manufacturers Board of Directors. She earned a B.S. degree from Brooklyn College and an MBA in finance from Columbia University School of Business in New York. She is also a graduate of General Electric's Financial Management Program.
