

CONTENTS

I	Introduction.....	1
II	Hydrogen Production and Delivery Sub-Program	7
	Overview.....	9
II.A	Distributed Production Technologies.....	13
II.A.1	Ceramic Membrane Reactor Systems for Converting Natural Gas to Hydrogen and Synthesis Gas (ITM Syngas)	13
II.A.2	Integrated Ceramic Membrane System for Hydrogen Production	18
II.A.3	Low-Cost Hydrogen Production Platform.....	23
II.A.4	Autothermal Cyclic Reforming Based Hydrogen Generating and Dispensing System	28
II.A.5	Novel Catalytic Fuel Reforming.....	32
II.A.6	Water-Gas Shift Membrane Reactor Studies.....	37
II.A.7	Hydrogen Production from Biomass Reformation.....	41
II.B	Separations.....	47
II.B.1	Defect-Free Thin Film Membranes for H ₂ Separation and Isolation	47
II.B.2	Inorganic Membrane Porous Support Tube Fabrication	53
II.B.3	Pyrochlore/Perovskite Proton Transport Membranes.....	56
II.B.4	A Photopolymerization/Pyrolysis Route to Microstructured Membranes	60
II.C	Biomass Gasification/Pyrolysis.....	65
II.C.1	Hydrogen from Biomass – Catalytic Reforming of Pyrolysis Streams.....	65
II.C.2	Startech Hydrogen Production (New Project).....	70
II.D	Photobiological Production	71
II.D.1	Maximizing Photosynthetic Efficiencies and Hydrogen Production in Microalgal Cultures	71
II.D.2	Biological Systems for Hydrogen Photoproduction.....	75
II.D.3	Algal H ₂ Production Systems: Creation of Designer Alga for Efficient and Robust Production of H ₂	82
II.D.4	Hydrogen Reactor Development and Design for Photofermentation and Photolytic Processes	87
II.E	Photoelectrochemical Production.....	91
II.E.1	Photoelectrochemical Systems for H ₂ Production.....	91
II.E.2	Photoelectrochemical Hydrogen Production	96
II.E.3	Discovery of Photocatalysts for Hydrogen Production	102
II.E.4	Photoelectrochemical Hydrogen Production Using New Combinatorial Chemistry Derived Materials.....	106
II.F	Electrolysis	113
II.F.1	High-Temperature Solid-Oxide Electrolyzer System.....	113
II.F.2	Renewable Electrolysis Integrated System Development and Testing	119
II.F.3	Alkaline, High-Pressure Electrolysis.....	123
II.F.4	Hydrogen Production – Increasing the Efficiency of Water Electrolysis (New Project).....	126

CONTENTS (Continued)

II Hydrogen Production and Delivery Sub-Program (Continued)	
II.F Electrolysis (Continued)	
II.F.5 Low-Cost, High-Pressure Hydrogen Generator (New Project)	128
II.F.6 Hydrogen Generation from Electrolysis (New Project)	132
II.G High-Temperature Thermochemical Processes	135
II.G.1 High Efficiency Generation of Hydrogen Using Solar Thermochemical Splitting of Water	135
II.H H ₂ Delivery	141
II.H.1 Hydride Based Hydrogen Compression	141
II.H.2 Hydrogen Permeability and Integrity of Hydrogen Transfer Pipelines (New Project)	146
II.I Analysis	149
II.I.1 Moving Toward Consistent Analysis in the Hydrogen, Fuel Cells and Infrastructure Technologies Program: Hydrogen Analysis (H ₂ A)	149
II.I.2 Hydrogen Transition Modeling and Analysis: HYTRANS v. 1.0	154
II.I.3 WinDS-H ₂ Model and Analysis	157
II.I.4 Technical and Economic Studies of Regional Transition Strategies toward Widespread Use of Hydrogen Energy	161
II.I.5 Hydrogen Production in a Greenhouse Gas Constrained Situation	167
II.I.6 Fuel Choice for Fuel Cell Vehicles: Hydrogen Infrastructure Costs	172
III Hydrogen Storage Sub-Program	177
Overview	179
III.A Compressed/Liquid H ₂ Tanks	183
III.A.1 Low-Cost, High-Efficiency, High-Pressure Hydrogen Storage	183
III.A.2 Optimum Utilization of Available Space in a Vehicle through Conformable Hydrogen Vessels	186
III.A.3 Next-Generation Physical Hydrogen Storage	190
III.B Chemical Hydrides	195
III.B.1 Low-Cost, Off-Board Regeneration of Sodium Borohydride	195
III.B.2 Hydrogen Storage: Radiolysis for Borate Regeneration	200
III.B.3 Chemical Hydride Slurry for Hydrogen Production and Storage	205
III.B.4 Design and Development of New Carbon-Based Sorbent Systems for an Effective Containment of Hydrogen	210
III.C Metal Hydrides	215
III.C.1 Catalytically Enhanced Hydrogen Storage Systems	215
III.C.2 Hydride Development for Hydrogen Storage	220
III.C.3 High Density Hydrogen Storage System Prototype Using NaAlH ₄ Based Complex Compound Hydrides	230
III.C.4 Discovery of Novel Complex Metal Hydrides for Hydrogen Storage through Molecular Modeling and Combinatorial Methods	235
III.C.5 Sub-Nanostructured Non-Transition Metal Complex Grids for Hydrogen Storage	239

CONTENTS (Continued)

III Hydrogen Storage Sub-Program (Continued)	
III.C Metal Hydrides (Continued)	
III.C.6 Complex Hydride Compounds with Enhanced Hydrogen Storage Capacity (New FY 2004 Project)	243
III.D Carbon Materials	245
III.D.1 Hydrogen Storage in Carbon-Based Materials	245
III.E Testing and Analysis	253
III.E.1 Standardized Testing Program for Emergent Chemical Hydride and Carbon Storage Technologies	253
III.E.2 Analyses of Hydrogen Storage Materials and On-Board Systems (New Project)	258
III.F New Hydrogen Storage “Grand Challenge” Projects	261
III.F.1 Carbon-based Materials Center of Excellence (New Project)	261
III.F.2 Metal Hydride Center of Excellence (New Project)	266
III.F.3 Chemical Hydrogen Storage Center of Excellence (New Project)	272
III.F.4 New “Grand Challenge” Independent Projects	277
IV Fuel Cells Sub-Program	283
Overview	285
IV.A MEAs and Catalysts	289
IV.A.1 Integrated Manufacturing for Advanced Membrane Electrode Assemblies	289
IV.A.2 Development of High-Temperature Membranes and Improved Cathode Catalysts	294
IV.A.3 Advanced MEAs for Enhanced Operating Conditions	301
IV.B Membranes and MEAs	309
IV.B.1 High-Temperature Membranes	309
IV.B.2 Electrodes for Hydrogen-Air PEM Fuel Cells	315
IV.B.3 High-Temperature Polymer Membranes	321
IV.B.4 Development of Polybenzimidazole-based, High-Temperature Membrane and Electrode Assemblies for Stationary and Automotive Applications	325
IV.B.5 Enabling Commercial PEM Fuel Cells with Breakthrough Lifetime Improvements	330
IV.B.6 MEA and Stack Durability for PEM Fuel Cells	335
IV.B.7 Development of a Low-Cost, Durable Membrane and Membrane Electrode Assembly for Stationary and Mobile Fuel Cell Application	339
IV.B.8 Development of Novel Water-Gas-Shift Membrane Reactor	343
IV.B.9 Montana PEM Membrane Degradation Study, Year 1 Report	348
IV.B.10 Development of Higher-Temperature Membrane and Electrode Assembly for Proton Exchange Membrane Fuel Cell Device	352
IV.B.11 Polymer Blend Proton Exchange Membranes	357
IV.B.12 High Temperature Polymer Electrolytes Based on Ionic Liquids	362
IV.B.13 New Polyelectrolyte Materials for High-Temperature Fuel Cells, Membrane Electrode Assemblies and Enhanced Selectivity	366

CONTENTS (Continued)

IV Fuel Cells Sub-Program (Continued)

IV.C Catalysts.....	373
IV.C.1 New Electrocatalysts for Fuel Cells	373
IV.C.2 Low-Platinum Catalysts for Oxygen Reduction at PEMFC Cathodes	379
IV.C.3 Low Platinum Loading Catalysts for Fuel Cells.....	384
IV.C.4 Development, Characterization and Evaluation of Transition Metal/Chalcogen-Based Cathode Catalysts for PEM Fuel Cells	389
IV.C.5 Novel Approach to Non-Precious Metal Catalysts.....	392
IV.C.6 Novel Non-Precious Metals for PEMFC: Catalyst Selection through Molecular Modeling and Durability Studies.....	397
IV.C.7 Non-Precious Metal Electrocatalysts.....	403
IV.C.8 Development of High-Performance, Low-Pt Cathodes Containing New Catalysts and Layer Structure	406
IV.D Bipolar Plates.....	411
IV.D.1 Scale-Up of Carbon/Carbon Composite Bipolar Plates.....	411
IV.D.2 Cost-Effective Surface Modification for Metallic Bipolar Plates	415
IV.E Platinum Recycling.....	421
IV.E.1 Platinum Recycling Technology Development	421
IV.E.2 Platinum Group Metal Recycling Technology Development	425
IV.F Fuel Processing.....	429
IV.F.1 Advanced High-Efficiency Quick-Start Fuel Processor for Transportation Applications	429
IV.F.2 Fuel Processors for PEM Fuel Cells.....	435
IV.F.3 Microchannel Reformate Cleanup: Water Gas Shift and Preferential Oxidation.....	441
IV.F.4 Plate-Based Fuel Processing System	446
IV.F.5 Quick-Starting Fuel Processors - A Feasibility Study	451
IV.F.6 Rapid-Cold Start, On-Board, Microchannel Steam Reformer.....	456
IV.F.7 Water Gas Shift Catalysis.....	462
IV.F.8 Catalysts for Autothermal Reforming	467
IV.F.9 Selective Catalytic Oxidation of Hydrogen Sulfide	472
IV.F.10 Development of a 50-kW Fuel Processor for Stationary Fuel Cell Applications Using Revolutionary Materials for Absorption-Enhanced Natural Gas Reforming	477
IV.F.11 Effects of Fuel Composition on Fuel Processing	481
IV.F.12 Evaluation of Partial Oxidation Fuel Cell Reformer Emissions.....	485
IV.G Stationary Power Systems	489
IV.G.1 Advanced Buildings PEM Fuel Cell System.....	489
IV.G.2 150-kW PEM Fuel Cell Power Plant Verification	493
IV.G.3 Back-up/Peak-Shaving Fuel Cells	499
IV.G.4 Economic Analysis of Stationary PEM Fuel Cell Systems	503
IV.G.5 Residential Fuel Cell Demonstration by the Delaware County Electric Cooperative, Inc. (New Project)	507
IV.G.6 Fuel Cell Operated Smart Home (New Project).....	509

CONTENTS (Continued)

IV Hydrogen Storage Sub-Program (Continued)	
IV.H Transportation Systems and Balance of Plant Components.....	511
IV.H.1 Fuel Cell Systems Analysis.....	511
IV.H.2 Fuel Cell Vehicle Systems Analysis.....	516
IV.H.3 Development of a Thermal and Water Management System for PEM Fuel Cells.....	520
IV.H.4 Fiber Optic Temperature Sensors for PEM Fuel Cells.....	526
IV.H.5 Cost and Performance Enhancements for a PEM Fuel Cell System.....	531
IV.H.6 Development and Testing of a Toroidal Intersecting Vane Machine (TIVM) Air Management System.....	534
IV.H.7 Development of Sensors for Automotive Fuel Cell Systems.....	538
IV.H.8 Sensor Development for PEM Fuel Cell Systems.....	544
IV.H.9 Low-Friction Coatings and Materials for Fuel Cell Air Compressors.....	549
IV.H.10 Graphite-based Thermal Management System Components for Fuel Cell Power Systems.....	553
IV.H.11 CO Sensors for Fuel Cell Applications.....	558
IV.H.12 50-kW (net) Integrated Fuel Cell Power Systems.....	564
IV.I Fuel Cell Characterization.....	569
IV.I.1 Neutron Imaging Study of the Water Transport in Operating PEM Fuel Cells.....	569
IV.I.2 Microstructural Characterization of PEM Fuel Cell Membrane Electrode Assemblies.....	573
IV.I.3 PEM Fuel Cell Durability.....	579
IV.I.4 Cost Analyses of Fuel Cell Stacks/Systems.....	585
IV.J DMFC and SOFC.....	591
IV.J.1 Direct Methanol Fuel Cells.....	591
IV.J.2 Modeling and Control of an SOFC APU.....	599
IV.J.3 Bipolar Plate-Supported Solid Oxide Fuel Cell.....	606
IV.J.4 Advanced Catalysts for Direct Methanol Fuel Cells.....	610
IV.J.5 Direct Methanol Fuel Cell Prototype Demonstration for Consumer Electronics Applications (New Project).....	616
IV.J.6 Direct Methanol Fuel Cell Power Supply for All-Day True Wireless Mobile Computing (New Project).....	617
IV.J.7 Diesel-Fueled SOFC System for Class 7/Class 8 On-Highway Truck Auxiliary Power (New Project).....	618
IV.J.8 Solid Oxide Fuel Cell System Development for Auxiliary Power in Heavy-Duty Vehicle Applications (New Project).....	619
IV.J.9 Research & Development for Off-Road Fuel Cell Applications (New Project).....	620
V Technology Validation Sub-Program.....	621
Overview.....	623
V.A Power Parks Analysis.....	625
V.A.1 Hawaii Hydrogen Power Park.....	625

CONTENTS (Continued)

V	Technology Validation Sub-Program (Continued)	
	V.A Power Parks Analysis (Continued)	
	V.A.2 DTE Energy Hydrogen Technology Park.....	630
	V.A.3 Hydrogen from Biomass for Urban Transportation.....	635
	V.A.4 Validation of an Integrated System for a Hydrogen-Fueled Power Park	639
	V.A.5 Hydrogen Power Park Business Opportunities Concept Project.....	643
	V.A.6 Hawaii Hydrogen Center for Development and Deployment of Distributed Energy Systems (New Project)	648
	V.A.7 Chattanooga Fuel Cell Demonstration Project (New Project).....	651
	V.B Hydrogen and Fuel Cell Demonstration/Analysis.....	653
	V.B.1 Alkaline Fuel Cell-Battery Hybrid Systems with Ammonia or Methanol as Hydrogen Supply	653
	V.B.2 UNIGEN® Regenerative Fuel Cell for Uninterruptible Power Supply	658
	V.B.3 Fuel Cell Installation and Demonstration Project, Gallatin County, Montana.....	662
	V.B.4 NextEnergy Fuel Cell Demonstration Project (New Project).....	666
	V.C System Analysis.....	667
	V.C.1 Controlled Hydrogen Fleet & Infrastructure Analysis	667
	V.C.2 Power Parks System Simulation	671
	V.C.3 Technology Validation: Fuel Cell Bus Evaluations	676
	V.D Refueling Technology Development and Demonstration	681
	V.D.1 Development of a Turnkey Hydrogen Fueling Station.....	681
	V.D.2 Development of a Natural Gas to Hydrogen Fuel Station.....	686
	V.D.3 Novel Compression and Fueling Apparatus to Meet Hydrogen Vehicle Range Requirements	691
	V.D.4 Hydrogen Refueling Technology	694
	V.D.5 Research and Development of a PEM Fuel Cell, Hydrogen Reformer, and Vehicle Refueling Facility	698
	V.D.6 Praxair Hydrogen Fueling Station at LAX – Small-Footprint H ₂ Capability at the Corner Filling Station	704
	V.D.7 Hydrogen Filling Station	707
	V.D.8 Hydrogen Fuel Project - H ₂ Fuel (New Project)	710
	V.D.9 Florida Hydrogen Initiative, Inc. (New Project).....	713
	V.E Vehicle Demonstrations.....	715
	V.E.1 Controlled Hydrogen Fleet and Infrastructure Demonstration and Validation Project (New Project)	715
	V.E.2 Hydrogen and Natural Gas Blends – Converting Light and Heavy Duty Vehicles	719
	V.E.3 Fuelcell-Powered Front-End Loader Mining Vehicle	721
	V.E.4 Global Assessment of Hydrogen-Based Technologies.....	725
VI	Safety and Codes & Standards Sub-Program.	731
	Overview.....	733
	VI.1 Hydrogen Codes and Standards.....	735

CONTENTS (Continued)

VI Safety and Codes & Standards Sub-Program (Continued)		
VI.2	Electrochemical Sensors for PEMFC Vehicles	741
VI.3	Interfacial Stability of Thin Film Hydrogen Sensors	747
VI.4	Codes and Standards Analysis.....	751
VI.5	Hydrogen Safety, Codes and Standards Research and Development	757
VI.6	Cooperative Industry-Government Hydrogen Safety Study (New Project)	764
VI.7	Hydrogen Safety	768
VI.8	Evaluation of Integrated Hydrogen Systems	775
VI.9	Management of International Energy Agency Hydrogen Implementing Agreement Secretariat	779
VI.10	Combustion of Hydrogen in Air under Simulated Accident Conditions (New Project).....	786
VII Education Sub-Program		789
Overview.....		791
VII.1	Determine Baseline Knowledge of Hydrogen and Fuel Cells.....	795
VII.2	Fuel Cell Demonstration with On-site Generation of Hydrogen (New Project)	798
VII.3	Washington State Fuel Cell Education and Demonstration Program (New Project).....	799
VII.4	Lansing Community College Alternative Energy Initiative (New Project)	803
VII.5	Shared Technology Transfer Project (New Project).....	804
VII.6	Montana Hydrogen Futures Project (New Project)	806
VII.7	Developing PEM Fuel Cell Educational Modules (New Project)	807
VII.8	Hydrogen Technology and Energy Curriculum (New Project).....	808
VII.9	H ₂ Educate (New Project)	810
VII.10	Hydrogen Technology Overview Publication and Program Information Kit (New Project)	811
VII.11	Hydrogen Educational Materials (New Project)	812
VIII Cross-Cutting Reports		813
VIII.1	Advanced Manufacturing Technologies for Renewable Energy Applications (New Project)	815
VIII.2	Clean Energy Research (New Project)	817
VIII.3	Fuel Cell and Hydrogen Research (New Project)	819
VIII.4	Adapting Planar Solid Oxide Fuel Cells for Use with Solid Fuel Sources in the Production of Distributed Power (New Project).....	821
VIII.5	Developing Improved Materials to Support the Hydrogen Economy (New Project)	823
VIII.6	New York State Hi-Way Initiative (New Project).....	824
VIII.7	Vermont Renewable Hydrogen Production and Transportation Fueling System (New Project).....	826
VIII.8	Fuel Cell Development for Distributed Generation and Carbon Sequestration in Northwest Indiana (New Project)	829

CONTENTS (Continued)
